General Comments

Premium grade sandstone, selected for its colours, which forms a very attractive pattern when laid.

Suitability

Indoor and outdoor. Including pool surrounds, paths, patios.

Type

Sawn edge, with natural cleft finish.

Sealing

Responds well to water based sealers for interior applications. For exterior applications use invisible penetrating type. Always seal within at least 1000mm of pool surround.

Cleaning

Moss can be removed using diluted bleach. Responds well to high pressure hose.

Colour

Medium tonal range with beige background and light brown banding.

Density

High density and consistent, few/no de-laminations.

Note: Specifications subject to change without notification, colours may not be fully representative due to printing & colours may change between shipments as stone is a natural product.
