

Slate

Indian Autumn

View of colour

Sizes

Tiles

600x400x12 Cal

General Comments

An attractive multi colour slate which also demonstrates some reflective qualities due to the mineral and metal composition of the slate.

Suitability

Indoor, and medium duty exterior application such as verandah.

Type

Sawn edge with natural cleft finish

Sealing

Responds well to solvent based sealers for interior applications. For exterior applications sealing is not required, however to facilitate easy cleaning use an invisible penetrating type .

Cleaning

Can use most cleaning products including those with a sulphamic acid formulation. Responds well to high pressure hose.

Colour

Multi colour with a blue grey background and flashes of brown/yellow in foreground.

Density

High/Medium density.

Note: Specifications subject to change without notification, colours may not be fully representative due to printing & colours may change between shipments as stone is a natural product.
